This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Public Subscription Reading-Room

AND

CIRCULATING LIBRARY.

THE SUBSCRIBER begs leave to call the attention of every class of readers to his Library. Being very extensive, and amply supplied with works in every department of Literature, it will be found to afford a cheap and easy method of access to all the most valuable books in the English language. The collection of Periodical publications is unequalled, as will be seen by the annexed list. A primary object, also, of the proprietor, will be to furnish the subscribers with a more immediate and regular supply of NEW PUBLICATIONS, than has hitherto been attainable, and for this purpose a large number of each will be secured, as they issue from the press.

The connexion with the LIBRARY of an amply provided LITERARY READING ROOM, offers great advantages; as for much less that the cost of one single London Journal or Review, twenty-five British, and ten to fifteen American Periodicals, besides Newspapers, may be read. Both LIBRARY and READING ROOM are kept open from an early hour in the morning till ten at night. The Room is furnished with the Morning and Evening Papers of the city, papers from the principal cities and towns of the United States, and with the large collection of Foreign and American Periodicals, regularly received, a list of which is given below. The date and number of about eight hundred volumes of Periodicals for past years, which belong to the CIRCULATING LIBRARY, may be found at the end of the Catalogue. Duplicates of many of these are also taken, as soon as they are published for the use of the LIBRARY.

CHARLES S. FRANCIS, Bookseller and Stationer.

VALUABLE FAMILY BOOKS.

CHARLES S. FRANCIS, 252 Broadway, New-York, and MUNROE & FRANCIS, Boston,

Have just published one of the best books for housekeepers that has ever been published, namely,

THE COOK'S OWN BOOK and Housekeeper's Register:

comprehending all valuable receipts and directions for cooking Meat, Fish, and Fowl, and for composing every kind of Soup, Gravy, Pastry, Preserves, Essences, &c. that have been published or invented during the last twenty years: With numerous original Receipts, and a complete System of Confectionery. To which is added, Miss Leslie's Seventy-Five Receipts for Pastry, Cakes, and Sweetmeats. Alphabetically arranged, and blank pages inserted for Family Memorandums.

☞ This work is a perfect culinary encyclopedia, there being few words, or phrases, or receipts, that cannot be found in it; and, with the addition of Miss Leslie's "Seventy-five Receipts" nothing can be wanted on the subjects above enumerated, embracing all the improvements of modern times. To a confectioner, or a family who wish to make any kind of preserves or sugar comfits, to the cook or the housewife, mistresses of families or their assistants, the rules found here are invaluable. The print is necessarily small but clear, for the purpose of giving a great quantity of reading in a small compass. The work contains about 600 pages, and several thousand receipts, and is put at a price which renders the purchase of a copy of it easy to any and every family. The paper is fine made to write upon, that housekeepers may have an enduring place to record memoranda of any kind relative to domestic or culinary subjects; and on the whole we need only say, that if ladies found in this book only one or two receipts that may assist them to promote the comfort of the table, the expense of the book will be amply repaid.

FOR THE LADIES.

THE FLORIST'S MANUAL: designed as a popular

Introduction to Vegetable Physiology and Systematic Botany, for Cultivators of Flowers. With more than eighty beautifully coloured engravings of Poetic Flowers. By Dr. BOURNE, late editor of the Literary Magazine. Bound either in arabesque, or flowered muslin.

☞ There is a numerous class in this and every community, who are unwilling to devote a long period to the study of botany, who, nevertheless, are desirous of knowing something of the subject. For such is this book designed. It has been aimed to divest the subject of those technicalities, that have too often discouraged new beginners in this pursuit. There has of late been manifested in this country an increasing taste for the cultivation of ornamental plants and fruits. The taste for cultivating flowers seems to pervade all classes of society. It is a pure taste, and argues well for the state of feeling in our community. It has been well remarked, that "where flowers are seen in the windows and about the dwellings even of the most humble, the inmates are seldom without some pretensions to refinement and taste." It is a healthy, innocent, and gratifying amusement, and particularly fitted for the occupation of females.

FIFTH EDITION, IMPROVED.

SEVENTY-FIVE RECEIPTS for Pastry, Cakes and

and Sweetmeats. By Miss Leslie, of Philadelphia.

☞ *This is the fifth* edition of this excellent work, with the author's last *revision and additions.*
